Education

Indian Institute of Information Technology Bhagalpur **Aug 2023 – May 2027**
B.Tech, Electronics and Communication Engineering *Bhagalpur, Bihar*

Experience

MercuryAI Innovations India Pvt. Ltd. **Sep 2025 – Oct 2025**
Frontend Developer Intern *Remote*

- Developed 12+ reusable and responsive UI components using React.js and Next.js, improving page performance by 20%.
- Completed all assigned tasks across two Agile sprint cycles with on-time delivery, demonstrating strong collaboration and communication with cross-functional teams.
- Refactored components to improve code quality, readability, and consistency across modules, enhancing maintainability and scalability.

Projects

LinkedIn Post Generator Tool | LLMs, Generative AI, Streamlit **Jan 2026 – May 2026**

- **Built a GenAI-based LinkedIn post generator** by analyzing 100+ sample posts to learn tone, structure, and writing style for automated content creation.
- **Developed an interactive Streamlit application** enabling users to generate customized posts in under 5 seconds, reducing manual drafting effort by 70%.
- **Engineered modular prompt pipelines** supporting multiple parameters (topic, language, length), improving output relevance and consistency across generations.

CreatorFlow-AI | PERN, Axios, PostgreSQL **Dec 2025 – Jan 2026**

- **Integrated AI-driven text, image, and prompt generation workflows** using AI APIs (REST), improving content creation speed by 30% and increasing user task completion by 3×.
- **Built and Deployed a full-stack AI-powered SaaS platform** using React, Node.js, PostgreSQL, and Clerk with secure authentication for **500+ test users**.
- **Implemented usage tracking, billing-ready architecture, and RBAC**, enabling a subscription-based SaaS model and improving feature-access efficiency by **60%.**

Technical Skills

Languages: C, C++, Java, JavaScript, Python, Go, SQL
Backend: Node.js, Express.js, Backend Systems, REST APIs, Web Technologies, API Development
Databases: MongoDB, PostgreSQL, SQL, Database Design, Caching Mechanisms
DevOps/Cloud: AWS, Azure, GCP, Docker, Kubernetes, Jenkins, Git, GitHub, CI/CD Pipelines, DevOps
Systems: Distributed Systems, Debugging, Performance Optimization, Software Maintenance
AI/LLMs: Generative AI, AI Agents, MCP, RAG, Prompt Engineering, LangChain, Vector Databases
Tools: Postman, VS Code, OpenAI API, Stripe, Mapbox
Frontend: React.js, Next.js, TypeScript, HTML5, CSS3, Tailwind CSS
Coursework: DSA, DBMS, Computer Networks, Operating Systems, OOP

Leadership / Achievements

- **Competitive Programming:** Solved **500+ coding problems** across LeetCode (**300+**) and GeeksforGeeks (**200+**), with regular participation in competitive programming contests.
- Completed **Full-Stack Web Development** course at Apna College.
- **Oracle Cloud Infrastructure 2025 Certified Developer Professional** – Certified by Oracle for advanced cloud-native development, OCI service integration, and scalable application deployment.
- **ServiceNow Certifications:** Earned **ServiceNow CSA** and **CAD** certifications with **80%+ scores**, validating expertise in ServiceNow platform administration, application development, and workflow automation.
